

Designer Peptides

Active Ingredient	Water Dispersible	Oil Dispersible/Mineral Oil Free	Appearance	Function
Palmitoyl Dipeptide-10	Corum 8802	Corum 8812/8812 CC	Viscous Liquid	Anti-oxidation, Anti-glycation, Anti-carbonylation, Restore suppressed proteasome activity, DNA protection
Palmitoyl Tripeptide-1	Corum 8803	Corum 8812/8813 CC	Viscous Liquid	Stimulates natural collagen synthesis, increases glycosaminoglycans, strengthens connective tissue
Palmitoyl Tetrapeptide-7	Corum 8804	Corum 8814/8814CC	Viscous Liquid	Mimics DHEA activity to regulate and maintain cellular regeneration, restores cellular activity, wound healing
Palmitoyl Hexapeptide-12	Corum 8806	Corum 8816/8816CC	Viscous Liquid	Stimulates fibroblast proliferation, stimulates elastin synthesis, firming effect, wound healing

Warming & Cooling Agents

Trade Name	INCI Name	Appearance	Function
Hotflux	Vanillyl Butyl Ether	Yellow to Brown Liquid	Strong, long-lasting and low irritation warming agent, soluble in IPP
Corum 9230	Menthol (and) Menthyl Lactate Recommended	Clear liquid	Strong, long-lasting and low irritation cooling agent, soluble in alcohol and glycols.

Specialty Actives

Active Ingredient	Water Soluble	Appearance	Purity (%)	Function
Ethyl Ascorbic Acid	Corum 9515	White Crystalline Powder	Min. 99%	Stable Vitamin C derivative that whitens and promotes collagen synthesis. Exhibits a strong melanogenesis inhibition effect. Reduces dark spots, anti-oxidant and protects DNA
Azelaic Acid	Corum 9146	White Fine Powder	Min. 99%	Pharmaceutical grade anti-acne agent that provides antibacterial and comedolytic effects. Helps prevent skin bacteria growth, controls sebum via enzyme.
