

FORMULATIONS

Exfoliating Brightening Elixir (#RO-014-18-A)

	Trade Name	INCI Name	%	Supplier
A	Deionized Water	water	QS	-
	Sensiva PA 20	phenethyl alcohol, ethylhexylglycerin	1.00	SCHÜLKE
	Edeta BD	edta	0.10	BASF
	Cibafast H Liquid	sodium benzotriazolyl butylphenol sulfonate, buteth-3, tributyl citrate	0.05	BASF
	BioNatural Tropical Enzyme	papain, bromelain, maltodextrin	0.10	BIOORGANIC CONCEPTS
	Glycerin	glycerin	1.00	-
	Cosphaderm Propanediol natural	propanediol	2.00	COSPHATEC
	Rheocare HSP-1180	polyacrylamidomethylpropane sulfonic acid	3.00	BASF
	Tinocare GL	Sclerotium Gum, Phenoxyethanol	1.00	BASF
B	Eumulgin HPS	coceth-7, ppg-1-peg-9 lauryl glycol ether, peg-40 hydrogenated castor oil	4.00	BASF
	Olivem 300	olive oil peg-7 esters	2.00	HALLSTAR
	Florasolvs Sunflower-10	peg-10 sunflower glycerides	2.00	HALLSTAR
C	Citric Acid	citric acid	0.87	-
	Sodium Citrate	sodium citrate	0.77	-
	SDA 40B 200 Proof	alcohol denat.	8.00	-
D	Et-VC	3- <i>o</i> -ethyl ascorbic acid	2.00	CORUM
	Beta-Hydroxyde ACSD	salicylic acid, acacia senegal gum	4.00	BASF
E	Pure Light Chinese Peony (S-Gly)	glycerin, paeonia lactiflora leaf cell extract	1.00	NAOLYS
	Eurol BT	glycerin, water, olea europaea (olive) leaf extract	0.10	HALLSTAR
	Mat-XS Clinial	water, butylene glycol, pentylene glycol, sarcosine, xanthan gum	2.00	BASF

PROCEDURE

- 1) Add A in order.
- 2) Premix B & add to A.
- 3) Premix C & add to A/B.

- 4) Add D.
- 5) Add E.

FORMULATIONS

Exfoliating Brightening Elixir (#RO-014-18-A)

SPECIFICATIONS

pH:	4.0-4.5
viscosity:	water-thin
appearance:	translucent, non-viscous liquid
color:	straw
odor:	characteristic

FEATURES AT A GLANCE

#Cold-Process
#BlemishControl
#SkinBrightening
#ChemicalExfoliation
#Mattifying

FEATURES AND BENEFITS

The Elixir is the perfect antidote for blemished skin with dark spots. **Beta-Hydroxyde ACSD**, a unique kerolytic active that better targets the horned layer of the skin by reducing cutaneous irritation than salicylic acid alone, refines pore size and reduces shine. **BioNatural Tropical Enzyme**, all natural, non-GMO proteolytic enzymes, helps to increase the exfoliation rate and soften skin tissues so the lines & blemishes seem less visible. The unique & stable Vitamin C derivative, **Et-VC**, helps to reduce dark spots and age spots to even & brighten the skin tone and provides DNA protection from UVB damage. Et-VC also stimulates collagen synthesis, reducing the appearance of fine lines and wrinkles. The Elixir also helps to prevent more blemishes by regulating sebum production. **Pure Light Chinese Peony** mattifies the skin while providing moisture and **Mat-XS Clinical** regulates sebum production with sarcosine as it inhibits 5 α -reductase type I. **Eurol BT**, an olive plant leaf extract full of bioflavonoids and polyphenols, also shows immediate effect on sebum regulation & skin redness. **Olivem 300 & Florasolvs Sunflower-10** provides hydration and light emolliency to the skin for conditioning.
