

C-Pep™ Tricoll

(Previously known as Corum 8803)

Product Information

FEATURE

- Collagen booster
- Glycosaminoglycan synthesis stimulation
- Help skin retain its natural firmness
- Strengthen the connective tissue

INCI NAME

Glycerin (and) Palmitoyl Tripeptide-1

CAS No.

56-81-5 (and) 147732-56-7

EINECS No.

200-289-5 (and) -

CHARACTERISTICS

Appearance	Viscous liquid
Odour	Characteristic

SPECIFICATIONS

Refractive index (20°C)	1.465 - 1.485
Specific gravity (20°C)	1.255 - 1.275
Peptide content (HPLC) (ppm)	90 - 130

DESCRIPTION

Peptides are miniature fragment of skin protein; they are messengers signaling dermis for synthesizing the material necessary for the skin.

C-Pep™ Tricoll is a synthetic lipopeptide, conjugating long chain fatty acid to improve skin penetration and skin affinity. C-Pep™ Tricoll contains three amino acids. It initiates the stimulation of collagen and glycosaminoglycan synthesis and strengthens the connective tissue. It helps the skin retain its natural firmness.

STORAGE

Protect from contacting with light, heat and moisture. Store in closed containers at room temperature. Shake well before use.

APPLICATIONS

C-Pep™ Tricoll is commonly used in the skin care lotion/cream/serum, such as skin repair, skin firming, anti-age and eye care. anti-acne claims.
