**EINECS:** 291-063-5, 269-820-6, 289-995-2

**Brand:** Biochemica®

A full aromatherapy experience, guaranteed to soothe the body, quiet the mind, and tranquilize the soul... such an experience has always been associated with a spa, but now you can attain all of these benefits from a butter. Biochemica® Lavender Butter consists of lavender extract in sweet almond oil and hydrogenated vegetable oil and was developed exclusively for cosmetic use. It is an extract of whole lavender flowers using a proprietary butter extraction process that produces a smooth, velvety “butter” at room temperature which smells like a field of wild lavender growing in the Parisian countryside. With this product you not only get the clinically proven power of lavender, which produces soothing, calming, and near sedative effects, but you also get it in a luxurious, easy-to-use butter base that will add amazing skin feel to any emulsion or anhydrous formulation. It is completely oil miscible and contains no preservatives or coloring agents. Help your creams and lotions, body and lip balms and bar soaps calm those frazzled nerves by using Biochemica® Lavender Butter.

The recommended use level is between 3 and 100%.

### Features & Benefits:

- Biodegradable
- Bodying Agent
- Emollient
- Fragrant
- Moisturizing Agent
- Plant Derived / Vegetal Based

Appearance	Soft white to light tan semi-solid to solid fat
Odor	Lavender (floral)
